

Do NOT allow the National Association of Broadcasters (NAB), their lobbyists or campaign contributions to influence Congress and the Federal Communications Commission in limiting XM's ability to provide me with "locally oriented" content, including the new XM Instant Traffic & Weather channels. I pay for the service that XM radio provides. Just like cable TV, since I pay for the service the NAB should not be concerned.

The NAB should be competing and improving their services instead of attacking satellite radio.

John Sandquist
